Please reference the transfer with SUBS and your name.

Legal compliance

All bikes used on all club rides and events should be in a condition that they are legal for use on UK roads. It is specifically noted that E-bikes can be readily modified to fall outside the regulations for electrically assisted pedal cycles (EAPC). Anyone riding an E-bike that falls outside the EAPC regulations (please ask, or search online if you are not sure) would certainly invalidate their own individual insurance, and could risk invalidating the club's insurance too.

Note that club insurance does **not** cover individual injury, liability or property and you should consider your own requirements for this (e.g. via British Cycling, Cycling UK or home insurance).

Please check the box to confirm you have read and will conform with this ruling
