

# Settle Wheelers Privacy Policy

## Managing Club Membership

For the purpose of managing membership, the club holds lists of members with their contact details and subscription information. The list includes ex-members whose subscriptions are overdue.

Contact details of riders are held solely for communication relevant to membership and club activities. They are not made public and are viewable solely by committee members. Under-18 members will be contacted via their parent/guardian.

Ex-member details will be removed from the list 12 months after their membership lapses.

## Time Trials

All riders are timed by computer, and their performances are made public on the club's website, including a historic list of personal best performances. Any riders who wish that their times are not made public in this way may request the removal of existing data, but the club reserves the right to refuse further entries.

## Data Sharing

None of our personal data is shared with third parties, other than as described above.
